# Discover the beauty of our vineyards

**Immerse yourself in a landscape that is a constantly evolving work of art.**

Our vineyards, surrounded by a breathtaking natural environment, offer a unique sensory experience in every season of the year.

From the explosion of colour in spring to the warm tones of autumn, each visit is a captivating experience for the senses.

# Discover the beauty of our vineyards

At Mas Igneus we offer you 3 types of visits:

- **Technical visit for professionals**
- **Classic Visit**
- **Wine Lover Visit**

Both the Classic Visit and the Wine Lover Visit consist of a small reception to adapt the visit to your needs, where over a glass of fresh white wine, we will tell you the history of our winery, the varieties that make up our wines and the natural environment that shapes it.

## Discover the beauty of our vineyards

Once we get to know each other, we will walk around the facilities, accompanied by our guide, who will tell us about the peculiarities of organic farming and the winemaking process.

Afterwards, we will arrive at the tasting room, where a selection of two wines will be waiting for us, adapted to your tastes, accompanied by a small gastronomic sample of the area.

**The difference between the classic visit and the wine lover is the duration of the visit and that in the second option we will make a small immersion in the vineyards.**

# Pairings for groups

## What does the experience entail?

We will begin with a reception at the entrance of the winery, where we will welcome you with an exquisite selection of appetizers and a glass of our white wine V from Mas Igneus, perfectly fresh and aromatic.

Then we will sit down at the table to enjoy a first course, paired with our red wine M from Mas Igneus.

As we progress through lunch, we will introduce another red wine from a higher range: the Fusio from Mas Igneus.

Finally, we will move to the barrel room to enjoy desserts accompanied by La Capelleta.
